Lightning Strikes in Every Game Round!

Lightning Roulette is like no other roulette game. The classic roulette wheel and bets are joined by extra chances to win with Lucky Numbers and Lucky Payouts.

In each game round, between one and five Lucky Numbers are struck by lightning and given multiplied payouts of between 50x and 500x.

Terminals include a stunning player interface and a large display with lightning effects and animations for maximum player thrills. Lightning columns and rear backdrop with black and gold art-deco-inspired styling set Automated Lightning Roulette apart from other roulette games. It's a sure way to light up your casino floor.

Non-multiplied Straight Up Bets pay 29:1. All other bets such as splits, corners, red/black and dozens pay the same as standard Roulette.

The most popular Roulette-inspired game show with an electrifying experience!
